We’ll help you reach your investment goals
Why invest with Coast Capital?

Purpose Driven
As a member owned organization, our purpose is aligned with our members’ and their goals.

Community
We invest in our communities to create a brighter future for our youth—who are the leaders of our future.

Culture of Care
We lean into the difficult conversations you will experience in life and empower you to achieve your financial well-being. We support the development and growth of our employees, members and communities by fostering a continuous learning environment and open communication.

High Quality Partnerships
We partner with world class institutional money managers around the world to deliver investment solutions to meet your long term goals.

Investing With Your Goals In Mind
When we say “future goals” what comes to mind?

- Saving for my kids’ education
- Caring for my aging parents
- Retiring comfortably
- Having money and time to give back
- Living without debt
- Owning a home
- Financial freedom
- Personal/career development
- Trying new experiences
Ways to Invest

Looking to grow your money? We can help. There are several different options available to you, each with their own unique benefits depending on your goals and whether or not you need easy access to your money.

Savings Account
- Fully accessible
- Low risk
- Lowest growth potential

GIC
- Less accessible
- Guaranteed rate of return
- Low growth potential

Mutual Funds
- Fully accessible
- Not guaranteed
- Higher growth potential

Benefits for Coast Capital Investors
- **Broad diversification** by asset class and investment style to manage risk and provide the potential for above-average returns.
- A **personalized investment strategy** set up by your Mutual Fund Representative or Financial Planner, based on your goals, your time frame and your tolerance for risk.
- Access to **globally-prominent money managers** normally available only to large institutional investors.
- **Continuous monitoring** of each underlying fund within your portfolio by SEI's team of investment specialists around the world.
- Investors receive **detailed quarterly statements** that include a personal rate of return.

1 Interest rate is based on the per annum rate of 0.96% listed for the Coast Capital Savings High Interest Savings Account as of February 28, 2019 on coastcapitalsavings.com
2 Based on annualized return over 10 years of the actual 1, 3 and 5 year Coast Capital Savings Non-Re Redeemable Term Deposit
3 10 year total performance for Low-Fee, More-For-Me Balanced 60/40 fund S Class units, net of the Funds’ operating expenses and applicable management fees payable to SEI. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.
4 Annualized returns to February 28, 2019. For illustrative purposes only. Past performance is not indicative of future performance.
Invest Early

Starting early makes a big difference. The graph below compares investing $500/month immediately for 30 years versus waiting for 15 years and then investing $1,000/month for 15 years. Both examples assume a 5% annual return on investment.

Starting early makes a big difference

Invest Regularly

Investing regularly takes advantage of dollar-cost averaging

Everyone knows that you’re supposed to “buy low, sell high” but it can be difficult – if not impossible – to time the market. By investing on a regular basis, you benefit from dollar-cost averaging.

<table>
<thead>
<tr>
<th>Month</th>
<th>Investment</th>
<th>Unit Price</th>
<th>Units Purchased</th>
</tr>
</thead>
<tbody>
<tr>
<td>January</td>
<td>$600</td>
<td>$10</td>
<td>60</td>
</tr>
<tr>
<td>Total</td>
<td>$600</td>
<td></td>
<td>60</td>
</tr>
<tr>
<td>Average cost per unit</td>
<td>$10</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Month</th>
<th>Investment</th>
<th>Unit Price</th>
<th>Units Purchased</th>
</tr>
</thead>
<tbody>
<tr>
<td>January</td>
<td>$100</td>
<td>$10</td>
<td>10</td>
</tr>
<tr>
<td>February</td>
<td>$100</td>
<td>$12</td>
<td>8.33</td>
</tr>
<tr>
<td>March</td>
<td>$100</td>
<td>$6</td>
<td>16.67</td>
</tr>
<tr>
<td>April</td>
<td>$100</td>
<td>$11</td>
<td>9.09</td>
</tr>
<tr>
<td>May</td>
<td>$100</td>
<td>$9</td>
<td>11.11</td>
</tr>
<tr>
<td>June</td>
<td>$100</td>
<td>$8</td>
<td>12.5</td>
</tr>
<tr>
<td>Total</td>
<td>$600</td>
<td></td>
<td>67.7</td>
</tr>
<tr>
<td>Average cost per unit</td>
<td>$9.33</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

For example, a lump sum $600 investment in month 1 would purchase 60 units ($600/$10 per share = 60 units). But, by investing $100 regularly over 6 months, the same $600 buys more units (67.7) and lowers the average unit cost to $9.33.

Diversify

It pays to diversify. How a portfolio is diversified can be one of the greatest determinants of overall investment performance. With such market unpredictability, a well-diversified portfolio can be the best investment strategy to help you reach your goals.

Stay Invested

Investing can feel like an emotional roller coaster. But history has shown that growth can’t occur without some volatility. The best course of action for most long-term investors is to stay invested.

There will always be events that cause ups and downs in the financial markets — and for many, it’s easy to overreact to short-term news. It’s important to remember, however, that historically, markets have always rallied and gone on to reach new heights.

Saving for Long-Term Goals

How to stay focused on long-term goals: Resist the emotional roller coaster

There will always be events that cause ups and downs in the financial markets — and for many, it’s easy to overreact to short-term news. It’s important to remember, however, that historically, markets have always rallied and gone on to reach new heights.

Investing for Income

Investing can be a great tool for generating a monthly cash flow with distributions paid in cash.

This example shows that the $100,000 initial investment pays out a monthly distribution over more than 9 years. The investment is still worth $94,636, while the investor received ongoing monthly distributions. The total dollar amount of monthly distributions received between the start and end dates is $58,709.

Investing For Income

Investing in mutual funds as opposed to short term GICs can be a great tool for generating a higher monthly cash flow when you need it most.

This chart illustrates the monthly income potential after investing $100 a month for 30 years in each type of investment product.

* Example listed is of the SEI Conservative Monthly Income Fund Class S. Annual distribution rate (paid in monthly installments) was 48 cents per unit between February 2009 and December 2016. Starting in January 2017 the rate was changed to 4% per unit annually (calculated on December 31), paid monthly. The rate of return or mathematical table shown is used only to illustrate the effects of the compound growth rate and is not intended to reflect future values of the Fund or returns on investment. Performance shown is for Class S units, net of the Fund’s operating expenses and applicable management fees payable to SEI. For illustrative purposes only. Past performance is not indicative of future performance.

Coast Capital Wealth Management calculation, based on the 10 yr CPI from Bank of Canada inflation calculator, 10yr average of the 5 yr GIC rate at Coast Capital (10 year Coast Capital data of 3.7% less inflation 1.66% for net rate of 2.04%). 10 year annualized rate of return of the SEI Balanced 60/40 Fund as of Feb 28, 2019 (7.7% less inflation of rate of 1.66% for net rate of 6.04%). For illustrative purposes only.
The Effects of Inflation

A dollar today is not worth as much as a dollar tomorrow. Over the long term, the effects of inflation can reduce buying power. Did you know that if you spend $150 per week on groceries today, the same groceries would cost you $270.92 in 20 years based on a 3% inflation rate? That's why it's important to grow your money.
